

11. To check whether a number is prime

File Edit Packages Windows Help

R Console

```
> n <- 17
[1] "Prime Number"
>
```

Untitled - R Editor

```
n <- 17
if (n < 2) {
  print("Not Prime")
} else {
  flag <- TRUE
  if (n > 2) {
    for (i in 2:floor(sqrt(n))) {
      if (n %% i == 0) {
        flag <- FALSE
        break
      }
    }
  }
  if (flag) print("Prime Number") else print("Not Prime")
}
```
