

13. To check whether a number is an Armstrong number

File Edit Packages Windows Help

R Console

```
> n <- 153  
[1] "Armstrong Number"  
>
```

Untitled - R Editor

```
n <- 153  
temp <- n  
sum <- 0  
digits <- nchar(n)  
while (temp > 0) {  
  digit <- temp %% 10  
  sum <- sum + digit^digits  
  temp <- temp %/% 10  
}  
if (sum == n) print("Armstrong Number") else print("Not an Armstrong Number")
```
