

16. To check whether a number is a Neon number

File Edit Packages Windows Help

R Console

```
> n <- 9  
[1] "Neon Number"  
>
```

Untitled - R Editor

```
n <- 9  
square <- n * n  
sum <- 0  
while (square > 0) {  
  digit <- square %% 10  
  sum <- sum + digit  
  square <- square %% 10  
}  
if (sum == n) print("Neon Number") else print("Not a Neon Number")
```
